Youngki and Jae,
  These two students have submitted their report late. Andrew Mattheisen is an off-campus student so he enjoys the right
to submit his report electronically.
They said that their file size is too big therefore they have uploaded it in the following Gmail account.
Can you please grade it with (40%) penalty.

Gmail account: vlsi.testing@gmail.com

The username is:vlsi.testing
The password is██████████

Please collaborate with this group if you find any difficulty in getting their report.

Thanks,
Rashed
